# ***THE ALL-NEW MAZDA2***

*THE IMPOSSIBLE MADE POSSIBLE*

mazda.co.za

## ***THE IMPOSSIBLE MADE POSSIBLE***

From perfecting the rotary engine and winning Le Mans the first time we entered it, to breaking the world record for the most-sold two-seater convertible in history, Mazda has a long history of making the impossible possible. We are driven forward by the desire to defy convention and we believe that if you can imagine it, we can make it happen. This desire is the fuel behind everything we create and achieve and now it has given us SKYACTIV TECHNOLOGY, 'KODO - Soul of Motion' design and countless other successes that were once considered impossible feats. These pages show how striving to do what others cannot is not only rewarding but also integral to creating innovative, beautiful cars.

## ***ALL-NEW MAZDA2-GET OUT IN FRONT***

The small car has taken a big leap forward. All-New Mazda2 rewards you with sophisticated design, while its SKYACTIV TECHNOLOGY unlocks quick-witted agility and outstanding fuel economy. Connectivity is a seamless part of the fun and the safety features are the most advanced around. This forward thinking performance is matched to an elegantly flowing 'KODO -Soul of Motion' design that reflects the dynamic beauty of an animal leaping into action. This allows The All-New Mazda2 to capture the imagination through this eye-catching sense of movement.

## ***A BETTER WAY TO MOVE - SKYACTIV TECHNOLOGY***

Getting around never felt so good. All-New Mazda2 is light-on-its feet around town, ensuring smooth-riding and sporty good fun everywhere you go. At every level, breakthrough SKYACTIV TECHNOLOGY has reduced weight and ramped up efficiency. Both 1.5 litre petrol & diesel engines give you lots of go, yet use very little fuel. There are automatic or manual transmissions - both responsive and refined. With a body that cuts quietly through the air, the Mazda2 moves you in the most enjoyable way you could imagine.

### **SKYACTIV-G 1.5L PETROL ENGINE**

The low weight, low friction and high efficiency fundamentals of SKYACTIV-G petrol engine design result in sporty performance with minimised fuel use. Its 4-2-1 exhaust layout helps produce 82kW of power and 145Nm of torque. Just 5.7 litres of fuel is used every 100 km when matched to the 6-speed (SKYACTIV-Drive) automatic transmission.

### **SKYACTIV-D 1.5L DIESEL ENGINE WITH i-STOP**

Similarly to the next generation SKYACTIV-D 2.2, the SKYACTIV-D 1.5 was developed in the pursuit of ideal combustion despite a very low compression ratio. As a result, the engine boasts outstanding dynamic performance, including torque equal to a 2.5-litre petrol engine and linear acceleration all the way up the RPM range. It also features excellent environmental performance without resorting to expensive NOx aftertreatment systems. Just 4.4 litres of fuel is used every 100 km when matched to the 6-speed (SKYACTIV-Drive) automatic transmission.

### **MANUAL TRANSMISSION**

The 6-speed SKYACTIV-MT manual transmission delivers precise, sports-car style shifting through simplified design and a finely-honed mechanism. More compact and also much lighter than comparable transmissions, it significantly cuts internal friction to improve fuel economy.

### **SKYACTIV-DRIVE AUTOMATIC TRANSMISSION**

Combines the best aspects of conventional automatic, continuously variable and dual clutch transmissions. The 6-speed SKYACTIV-Drive automatic transmission couples directly with the engine over a far wider range than other automatics, ensuring increased fuel economy and more direct power delivery. Shifts are quick and smooth.

### **SKYACTIV-BODY**

New-generation design and materials maximise lightness and rigidity. Key joints are strengthened by advanced techniques requiring no heavy reinforcement. High and ultra-high tensile steel cuts weight and boosts strength. Despite being light, All-New Mazda2 achieves outstanding collision performance.

### **SKYACTIV-CHASSIS**

Every component has been optimised to build the sense of 'oneness' between car and driver. The lightweight front strut and rear torsion beam suspension use firmer bushings and revised geometry for sporty agility with high levels of refinement. Electric power-assisted steering saves fuel, and also delivers quick handling underpinned by reassuring stability.

## ***KEEP YOURSELF CONNECTED WITH MZD CONNECT***

Take off in a Mazda2 and you're still in touch with the stuff that counts. Hook up your compatible smartphone to the MZD Connect system and get access to a heap of online content, including Facebook and Twitter feeds, radio, podcasts and more. Texts can even be read out loud. It all comes together right where you need it; on a central touch screen positioned to help you stay focused on the road. Control is effortless, with a rotary commander falling to hand without you even having to look. Nothing could be easier - available from Dynamic model.

## ***GOOD CALL***

Standard Bluetooth® lets you make hands-free calls easily and safely. Audio controls are also integrated in the steering wheel - available from Dynamic model.

## ***PLUG IN AND PLAY***

Built-in USB port makes it easy to listen to music via players or storage devices, and charge compatible devices.

## ***AT YOUR COMMAND***

Flip through menus and functions with the rotary commander designed for minimum distraction - available from Dynamic model.
